

# Data & Analytics Recruitment

## Who I am

**Nathan Carolan**  
Principal Consultant  
T: +44 (0)20 7422 9213  
E: ncarolan@mcgregor-boyall.com  
W: mcgregor-boyall.com

Nathan is a Principal Consultant at McGregor Boyall and has over 6 years' experience, specialising in Data and Analytics recruitment.

Over the course of these 6 years Nathan has become a true SME within the Data Science and Data Engineering area and has established himself as a trusted partner to his clients. Nathan has a great understanding of the Data Analytics market and takes the time to understand his clients' strategic needs. This, coupled with his large portfolio of candidates, has allowed for a very successful placement record. Nathan has also taken the time to arrange Data Science Meetups which have been a success within the Data Science community.

### Nathan specialises in placing the following skillsets:

- **Data Engineer**
- **Cloud Data Engineer**
- **Head of Data Engineering**
- **Data Scientist**
- **Head of Data Science**
- **RPA Developer**
- **Big Data Developer**
- **Big Data Architect/Data Science Architect**

Nathan has cross industry experience, which includes sectors such as; Financial Services, FinTech, Media, Telco, Tech and Professional Services with a focus on Data Engineering/Data Science SME's.

His experience includes work with core clients such as: Vanguard Asset Management, HSBC, JP Morgan, MUFG, Bank Of England, Nest, Deloitte, The Royal Mail Group and many more.

## What we do in Data & Analytics

Within the Data and Analytics practice we work with some exceptional talent and have a vast network of candidates across multiple industry sectors on both a contract and permanent basis.

We dedicate ourselves to work closely with our clients to really understand their business and challenges that they face on a day to day basis.

It is key for us to understand the desired timelines and the knowledge gaps within their teams in order for us to assist our clients in the best way possible to procure their talent.

We pride ourselves in providing our candidates with all the key information that they need so that they are able to make an informed decision about the role and culture of the prospective client.

Our consultants within the Data and Analytics function apply a tailored approach to each assignment that they are engaged with, by utilizing their network, Marketing, Headhunting and search in order to provide top quality talent.
